Dollar Days a Success

The business men are well pleased with the success which met their efforts on Saturday and Monday when they put on "Dollar Days." Considering the inclement weather there were large crowds of people to take advantage of the bargains offered by practically all the businesses in town.

The rain Saturday morning made the roads somewhat greasy and undoubtedly kept a large number from coming into town during the day. On Saturday evening the town was crowded, but the heavy rain sent the people home long before the usual time.

The offer of the Pioneer to receive new subscriptions and renew or advance the date of the subscription for one year met with great success. The most encouraging feature was the number of new subscriptions we received, and in view of the excellent response, we have decided to extend our offer until Saturday, June 4th. Remember, you can have a new subscription, renew or advance the date of your present subscription for one year for one dollar until June 4th.

WEEKLY SERMONETTE

I know not where God's islands lie
Their fronded palms in air;
I only know I cannot drift
Beyond His love and care.

BIRTHS

On Saturday, May 14th to Mr. and Mrs. Alice Robertson, of Westcott, a son.

On Thursday, May 19th to Mr. and Mrs. Jack Robertson, of Westcott, a daughter.

Big Day Expected.

The Canadian Legion are preparing for a big day Friday, June 3rd, when they will hold their 2nd annual field day and sports at the fair grounds.

Everybody is invited to bring their lunch and picnic in the grove. The Legion will supply coffee and lemonade free at noon and it will be an opportunity to visit with friends from far and near.

In the afternoon there will be sports for everybody, including foot races for boys and girls, 3-legged races for boys and girls, fast men's race, ladies' race and a Legion members' 100-yds. pace or trot.

The Legion will present an episode of early frontier days, "The Lucky Nugget" in which outlaws, Indians, and prospectors take part.

There will also be a softball tournament for local teams, and the day will wind up with a big dance in the Opera House at 8:30 p.m.

Proclamation.

TO THE CITIZENS OF
THE TOWN OF DIDSBURY
GREETINGS!

In Honour of the Birthday of our Sovereign, His Majesty King George V, I hereby proclaim a Public Holiday to be held in the Town of Didsbury after the hour of 1 p.m. on Friday, the 3rd day of June, A.D. 1932.

Let all loyal citizens conform to this Proclamation.

GOD SAVE THE KING.

Given under my hand at Didsbury, Alberta this 25th day of May, A.D. 1932.

H. W. CHAMBERS,
Mayor,
Town of Didsbury.

LOCAL & GENERAL

Miss Alice Pearson was a Calgary visitor last week-end.

Miss Irene Grant spent the holiday at her home in Edmonton.

It won't cost much to paint your buildings now! See the Builders Hardware ad.

Mr. Levens, of the Royal Bank spent the week-end in the southern city.

Mr. and Mrs. E. G. Ranton spent the holiday at Edmonton and South Cooking Lake.

Mr. I. Falk and his family have moved to a farm in the Elkton district.

Met. Hugot and Al. Russell made a motorcycle trip to Camrose on Saturday, where they visited Mr. Russell's parents.

According to the Alberta Gazette the village of Carstairs will hold a sale of property under the Tax Recovery Act on June 20th.

The apple tree in Mr. W. A. Austin's yard is in blossom and makes a fine show. It is a sight worth seeing in this country.

The Rev. and Mrs. Whitmore, Mr. R. Henderson and Mr. Wright, all of Pincher Creek, visited in Didsbury May 24th while en route to the United Church Conference at Edmonton.

Miss Edna Hehn, of Torrington, and Miss Una Weber, of Calgary were visitors with Mr. and Mrs. W. Keith last week-end. On Sunday Ward drove out to Torrington and says the going was mighty tough.

Mr. W. A. Teskey, of Calgary was renewing acquaintances here on Saturday. He informed us that he has left the service station on 4th Street and is opening a garage on 8th Street.

The Sylvan Lake season has opened and a number of Didsburians braved the elements and visited the resort this week. Amongst those who made the trip were Mr. and Mrs. Studer, Mr. and Mrs. Kendrick and Mr. and Mrs. W. G. Liesemer.

Wet weather doesn't mean anything to Alf. Brusso, Fred Evans, Geo. Royds, Norval Honey and Pete Booker. They went camping on the Dog Pound from Saturday to Tuesday and had to sit up all one night on account of being flooded out, but moved camp next morning and stayed with it. They say it is a great life.

WEEKLY JOKE

An old clogger was crossing a busy corner when a huge police dog snatched into him and bowled him over. The next instant an Austin skidded around the corner, bumped him and inflicted more severe bruises.

Bystanders assisted him to his feet and someone asked him if the dog had hurt him.

"Not exactly," he replied, "it was the tin can tied to his tail that did the most damage."

Farmers Rejoice Over Downpour

Alberta Rainfall Covers Large Area, Including South Dry Belt.

Rain came again to Alberta during the week-end, bringing with it a wave of optimism.

Far and wide the downpour was reported; South to the international border; West into the mountains; North through the country that last year was parched and dry; East through much "drought" land the welcome moisture went, turning the sprouting wheat even a brighter green and lightning countless hearts on far.

With the storm came some damage. A country elevator at Kenna was struck by lightning and burned to the ground; a school building suffered a similar fate; thousands of windows in the Cardston district were broken by hail and streets and buildings were flooded in the southern town.

Essay Prizes Awarded.

Friday afternoon last in the Public School prizes were awarded for work done in the recent W.C.T.U. essay and poster contest. Mrs. R. Cunningham, local W.C.T.U. president gave an address to the children and the awards were presented by Mrs. L. Madeche. Work books and posters will be on exhibit at the next meeting. Much thought was put into the work and results are particularly good.

Essays, Grade 8.

1, Florence Kenschah; 2, Arthur Boorman; 3, Rita Scutcheon.

Grade 7: 1, Winnie Adshad; 2, Harold Gulliver; 3, Rita Scutcheon.

Health Work Books, Grade 6.

1, Lois Edwards; 2, Norman Falk; 3, Rita Scutcheon.

Grade 5: 1, Joyce Cummings; 2, Alma Cunningham; 3, Betty Boorman; 4, Barbara Spence.

Posters.

1, Norman Falk; 2, Alma Cunningham; 3, Jimmy Lamont.

Softball.

A softball league will be organized and all who are interested are asked to attend a meeting to be held in C. E. Reiber's office at 7:30 tonight (Thursday).

Fish & Game Assn. Active.

Mr. R. T. Rodd, supervisor of fisheries for Alberta made an inspection trip to the west country last week and was accompanied by Mr. Geo. Julien, president of the local branch of the Fish & Game Assn. and Mr. Jack Fleury.

Mr. Rodd complimented the local association on their interest in preservation and the propagation of fish and game in the district. He inspected several rearing pools on Bear Creek, which the association have built. He stated that this experiment was the first of its kind in the province and that he would stock the pools with 10,000 trout fry and watch the experiment very closely.

Mr. Rodd intimated that his department would supply a large number of trout for stocking the streams in the west country during the season.

The following streams will be stocked with Loch Leven trout: Mill Creek 5,000; Harold Creek 20,000; Kenna Creek 20,000; Little Red 10,000; Dog Pound 15,000; Swan Creek 5,000; James River 10,000 and the Big Red Deer and tributaries 110,000. Spotted trout will be placed in the Fallen Timber to the amount of 15,000, and in the Raven River 35,000.

The local association is making a drive for members and have set their fees at the nominal sum of 50 cents. It is realized by the executive that the larger the membership the more effective will be the work of conserving the fish in the streams and the game in the forests. There is a splendid heritage for the sportsman in the country west of Didsbury, and every sportsman should be interested in the work of the Association. If you are interested see: G. Julien, J. Fleury, W. McFarquhar, H. Lee, or J. E. Gooder, who will be pleased to receive your membership fee.

Trail Rangers Enjoy Early Morning Run

The Trail Rangers got up early on May 24th. At 6:30 in the morning they met at their clubroom and started on a paper chase to the rocks. They circled the town and though the hares laid many false trails the hounds overtook them before they reached their destination, which was "The Rocks," south-east of town.

After a short devotional service the cooks prepared a hearty breakfast and the boys played games until about 2 o'clock. They all say it was the best yet.

Teamwork

The one word or term embodying this thing most needed now and most likely to be needed in an increasing way for the long pull back to more satisfactory economic and business conditions is, in our opinion, "Teamwork." If there ever was a team which called for "the long pull and the strong pull altogether," that time is now.

A farmer following his horses as he guides a plough along the furrows knows what teamwork on the part of the horses means; also teamwork between the horses and the ploughman. Possibly he realizes the full value and necessity of such teamwork in an even more striking manner when it is lacking, and, as the outcome, proper results are not being achieved.

Men participating in the many fields of sport have a full appreciation of the value of teamwork. Every successful captain of a team drills it into his men. But how frequently one reads that such-and-such a team, while composed of brilliant and superior individual players, lost out to an individually inferior team because of a lack of co-ordinated effort—in a word, teamwork. And this lack of teamwork all too frequently results because one or more of these individually brilliant players desire to keep themselves in the "spotlight," play to the gallery, and win prizes for themselves rather than for the team as a whole.

Success in military exploits depends to a very large extent upon teamwork, the co-ordination of every arm of the service to the achievement of one common object, the co-operation of each unit with every other unit, both in preparation and final action, to the end that victory be won. Without this "union in service," the bravest men in the world are likely to suffer defeat at the hands of an inferior but more united force. Victory does not always rest with the big battalions, but with the compact body which moves and acts with precision as one man.

The same principle applies with equal truth and power in the realm of national, political, and community life. If in an army the artillery considered that it and alone was the effective instrument in winning battles, and, instead of co-operating with the infantry, tanks, machine-guns, and aircraft, actually ignored and even strove against them, the enemy would win. Yet, how often groups of people having a common object in community effort or in the political arena instead of working together to achieve that object, actually oppose each other solely because they do not agree upon every detail of their programme, nor see eye to eye as to the methods by and through which the reforms desired by all are to be brought about. And the result, of course, is victory for the other group or policy instead of all being opposed.

There are many time-honored maxims which point the truth that teamwork is essential to success. "In union there is strength." "United we stand, divided we fall," while for the enemy forces there is always the further maxim: "Divide and rule."

Teamwork can only be brought about by a willingness to compromise. Some good people regard the word "compromise" as something essentially wrong, as a great evil. True, right cannot compromise with wrong, nor honesty with dishonesty, but where two are striving for what both believe to be right, and in opposition to what they are agreed is unwise or wrong, it is the height of folly to divide into separate and opposing camps, weakening each other and the cause they both desire to advance, simply because of minor differences of opinion as to exact objectives to be achieved or the methods by which it should be achieved. Unless there is compromise, rather than each one insisting upon acceptance of their views to the exclusion of others, failure for both must inevitably follow and victory be recorded for the common enemy.

The experiences through which the world is passing have impressed a majority of people with the need for more or less radical changes in our economic and social structure. That change is necessary is fairly well recognized, but some desire to move much more rapidly and drastically than others; some believe the remedy for our ills is to be found in another policy; others, again, advocate something else. All want improvement, reform. But through divided councils, lack of co-operation, in a word, an absence of teamwork, nothing but confusion has thus far resulted, while those minorities who are more or less satisfied with things as they are, by working together, are enabled to dominate.

This condition prevails in society, business, community effort, in municipal, provincial, and international politics. It is even found in family life. It is fatal to progress, a continually delaying factor in the onward march of reform.

What the world needs today is not antagonism, but mutual sympathy; not competition, but co-operation; not isolated effort, but co-ordination of effort; not single-handed play, but teamwork. And these things can only be brought about by compromise. So, let's compromise and develop mutual strength through teamwork. The world will then begin to get somewhere, and out of the slough of depression in which it continues to founder.

Too Bad For the Wife

A farmer appeared the other day at a theatre that is accepting two oaten eggs as the price of admission. He handed a paper sack to the ticket-taker.

"There's a couple of dozen eggs," he said. "I want to see you soon." "I have brought the oaten with me if the hens had shelled out a little better."

Wives are encouraged by mobbed credit and of the stimulus and heat and so subject. Miller's Warm Pads will alter these conditions, almost surely. So destructive, parasite, native in contact with this medicine, which is not only a warm destroyer but a health-giving medicine, and beneficial to the young constitution.

The 1500000000 vehicle to pass through the Holland Tunnel to New York was recently counted.

Polen try is most evident at the following season.

Called His Bill

The time had come to shut up the ration, and in an Irish regiment the quartermaster and his assistant had been portioning them out in preparation for distribution.

The assistant turned to the quartermaster and with a twinkle in his eye, said: "As ye please, sorr, there's a loaf short. Wholl I give it to?"

"Keep it your-self," Mike replied the quartermaster.

China Leading Customer

China is the leading customer for complete aircraft made in the United States. In both 1929 and 1931 China held the lead over all other countries. The Chinese like American machines because their territory bears a remarkable similarity in flying conditions to those in the United States.

Suffering in silence is more fun if you explain what you're doing so nobody will miss it.

Palpitation of the Heart Could Hardly Get Around

Mrs. Charles Starnes, R.R. 5, Peton, Ont., writes: "I was troubled with palpitation of the heart, couldn't sleep, day or night, and was so weak I could hardly get around."

After taking Milburn's Heart and Nerve Pills I was greatly relieved of these attacks. My mother also has great faith in them and finds no other medicine can help her so much for heart trouble.

I can assure you that Milburn's Heart and Nerve Pills are a wonderful medicine."

Keep On Working

Despite Disarmament Talk New War Weapons Being Invented

Just as a fillip to the disarmament discussions, we suppose you noticed that Haddies, Limited, munition manufacturers of St. Rich, England, have developed a high explosive shell that will pierce the best quality of armor plate one foot thick, from a distance of ten miles.

While the world talks much of disarming the men who sit back and invent new schemes for killing millions keep right on working, and producing results.

Down in Weight and Very Pale

Mrs. Beare Thankful For Way in Which Dr. Williams' Pink Pills Helped Her Back To Health

"I can truly recommend Dr. Williams' Pink Pills for the did wonders for me," writes Mrs. Mable R. Beare, New Westminster, B.C.

"After a long and very trying illness, I was down to 105 lbs. in weight. I could not eat a hearty meal. In fact, I have had to go away from the table hungry from a dinner I dared not touch. I was also very pale. I had often read about Dr. Williams' Pink Pills, so I thought I would give them a trial. I soon found I was able to eat with any one, and to look like a healthy girl. My weight came up to 118 lbs., and my lips and cheeks had lost of color. I am more than thankful I ever took Dr. Williams' Pink Pills, and I only hope others will try them."

In Williams' Pink Pills actually create an abundance of new red blood, which is the reason they have given new vitality and strength to thousands of such nervously exhausted women. Equally helpful for growing girls. Try them. At your drug-gist's in the new glass container. See The First Bicycle.

A Frenchman, M. de Sivree, is said to have organized the idea for a bicycle, the first machine appeared in Paris during 1816. It consisted of a wooden frame and two wheels. Leocomotion was achieved by pushing on the ground with the feet.

Women feed upon the vitality of children and suffer their lives. A simple and effective remedy in Mother's Grace's Worm Expeller.

Low Ocean Fares

Britain Preparing For Greater Invasion Of Tourists From Canada Than Ever Before

Britain is preparing for a greater invasion of tourists from Canada and the United States than ever before, this season. This is due to more determined efforts on the part of the Travel Association of Great Britain and Ireland, who have highly organized their resources for welcoming visitors to the Old Land.

Recent ocean rate reductions to the extent of 20 per cent. have now made it possible to spend a summer holiday by going to Europe, doing whatever sight-seeing one's time permits, and returning to this country for an all-inclusive charge of less than seven dollars a day, according to the Cunard and Anchor-Donalson lines. These tours in Europe include the best sight-seeing in the time available, chiefly by motor coach, as well as by rail and steamer. These tours also include visits to the Continent, in France and Belgium, especially.

"Modern Third Class" is used for the ocean crossing and to many people whose memories of Third Class date back to many years ago when they first came to Canada, this class offers surprising comfort. Nowadays, in fact, third class is more comfortable than first class was thirty or forty years ago.

Ontario and Quebec provinces expect to reap some benefit from the mass of tourists who pass through Montreal on their way to Europe, as many western Canada and United States visitors spend some time seeing Ottawa, Toronto and Montreal, en route.

Like a Grip At The Throat. For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted and finally, though the attack passes, is left in increasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedy. It immediately relieves the restricted air passage as thousands can testify. It is sold by dealers everywhere.

Large shipments of construction materials continue to arrive in Manchuria.

Eggs laid in spring keep better in water glass than do eggs laid in summer of fall.

Soap Used Without Water

A waterless soap has been developed by a chemist attached to a joint concern in Kansas City. The soap, in the form of a paste, is said to be harmless to the skin and even possesses healing and antiseptic qualities. It lathers freely without water and absorbs all dirt.

Perskin Balm, the peerless aid to loveliness. Delightfully fragrant. Dainty to use. Leaves no stickiness. A little gentle rubbing and it is swiftly absorbed by the tissues. Tonic in effect. Soothes and dispels roughness and chapping. Keeps skin soft and velvet-textured. Unrivalled for chafe, distinction and refinement. Used by lovely women everywhere to preserve and enhance their natural beauty.

Campels in the small province of Crenaca, Africa, now number 40,000.

Some Of The Advantages As Well As Disadvantages In Growing Of Reward Wheat

(By H. G. L. Strunge)

As the wheat fields in Western Canada begin to extend northwest the wheat was felt for a wheat variety that would mature earlier than Marquis, as well as avoid damage from early fall frosts. Several new varieties had been produced by plant breeders to fill this purpose, notably the Red Fife selections, originated by Dr. Bequer Wheeler, Supreme, Early Triumph and Red Bote 222, the latter having been re-selected by the University of Alberta, also the varieties Garnet and Reward produced by the Dominion Experimental Farms, Ottawa.

Because of its high yield Garnet wheat quickly became popular and in the last few years has increased by leaps and bounds in Northern Alberta and Northern Saskatchewan. Some concern, however, has been felt that because the milling qualities of Garnet are somewhat different from those of Marquis, and because Garnet flour has a slightly yellowish tinge, that the quality and reputation of Canadian wheat on the world's markets might be harmed if too large an amount of Garnet should be grown.

Because of this concern some have recommended that some of the other varieties might be better. Reward wheat is one that is widely recommended.

Reward was originated at the Dominion Experimental Farm, Ottawa, and is the result of a cross between Marquis and Prelude made by Dr. Charles Saunders in 1912. Under the direction of Mr. L. H. Newman, the present Dominion Cerealist, the variety was tested for several years by several hundred co-operators in different parts of the west. Finally the variety was released by the Minister of Agriculture for further trials by farmers in 1928.

Reward wheat has this year been accepted for registration by the Canadian Seed Growers' Association, which means that the scientific plant breeders of Canadian Institutions consider that the variety is of good economic value and is well-suited for use in Western Canada. There can, therefore, be no need for hesitation in the use of this variety by any farmer who finds that their districts and farms are suited to Reward wheat. The Dominion Cerealist has now standardized the variety and the Registered Seed of Reward, true to variety and sealed in the sack, will undoubtedly be available to farmers in the near future.

The official description of Reward wheat is as follows: Time of maturity 5 to 8 days earlier than Marquis—height of plant 3 to 4 inches shorter than Marquis on the average—strength of stem a little stronger than Marquis—awns absent except for a few short awned awns, usually irregular in length, glume covering, slightly to heavily pubescent (or hairy), the peduncle on season and locality, grain deep red, usually darker than Marquis, grain texture hard, rarely piebald or starchy.

The head of Reward is generally shorter and more lax than Marquis, while the spikelets are usually more or less irregularly arranged, giving the head a characteristic ragged or spiral appearance. As previously stated the glumes are pubescent or covered with short hairs which can usually easily be seen with the naked eye magnifying glass. This is one of the always with a magnifying glass. This

is one of the characters that help in identifying the variety.

The milling and baking values of Reward wheat are excellent. It gives a high yield of flour. It bakes into bread, giving a large well filled loaf of excellent color and texture. The berry is uniformly plump, of a clear red color, seldom being piebald or starchy. This is the reason this variety will often bring No. 1 Hard and No. 1 Northern in the Northern districts where Marquis and some other varieties seldom obtain better than a No. 3 grade.

The straw is shorter and stiffer than in other Marquis or Garnet, and in wet years Reward will often stand up when some other varieties, particularly Garnet, go down. The chaff is less on the head, which enables it to stand a considerable amount of moisture in the fall without sprouting in the stock, such as often happens with other sorts, particularly with Garnet.

It is from 5 to 8 days earlier than Marquis or about as early as Garnet wheat in most places, although in other places it is 2 or 3 days later than Garnet, but it is always earlier than Marquis.

Weights very high to the bushel. Usually two or three pounds more than Marquis. Garnet of course, weighs 65 and 66 pounds to the bushel are quite common with Reward wheat. Reward is probably the best of all varieties of Hard Red Spring Wheat for Exhibition purposes. Its high weight per bushel, bright, plump and pleasing berry of good lustre usually win it a high place in competition with other varieties.

Reward wheat is not a rust resistant wheat, but because of its earliness in rust years often suffers less damage from rust than many of the other varieties. Investigations have shown that Reward wheat does not shatter as much as some of the other varieties, particularly Garnet.

On rolling land wheat on the high ridges usually ripens before that in the low spots. Reward will stand on these high places uncut after ripening for a considerable time without the berry shattering or discoloring, thus the whole field can be allowed to ripen thoroughly before cutting; therefore the sample should be of an even color and plumpness even from such rolling land. It is still short and early maturing, non-shattering head and ability to stand after ripening without much loss of plumpness, weight or color, makes Reward wheat an excellent variety to use for Combine Harvesting.

The most defect of Reward wheat at the present moment seems to be that of the whole the yield is lower than other Marquis or Garnet, but in some districts farmers state the yield of Reward is higher than Marquis or Garnet, and in many districts where most farmers report lower yields of Reward there are often one or two farmers who report higher yields. In most cases those who report high yields of Reward have seeded from a peck to half a bushel more than is usual with Marquis or Garnet. Every case investigated where the farmer seeded two bushels of Reward to the acre reported as giving a satisfactory yield.

Empire Reforestation

B. C. Douglas Fir Now Grown Extensively in England

During the eleven years ending in September, 1930, the Forestry Commissioners of Great Britain planted a total of 82,330,000 Douglas fir trees on various sites in England, Wales and Scotland. All these trees were raised from seed furnished by the Forest Service, Department of the Interior, through their seed-extraction plant at New Westminster, British Columbia. A considerable quantity of seed of other western species was furnished to the Commissioners from the same source. The New Zealand Government also took a large quantity of tree seed.

Economic improvement in French Indo-China shows increasing momentum.

Recent Discovery Interests Astronomers

May Be Asteroid Nearer To Earth Than Any Yet Found

Astronomers at Mount Wilson Observatory and others in this country and Europe are keeping a close watch on Delporte's "object," an asteroid or comet discovered recently by an astronomer at the University of Brussels.

"Our observations of it have disclosed no tail and seemingly only reflected light," said Dr. Frederick H. Sears, indicating that it is an asteroid and not much closer to the earth than any yet found.

He is assistant director of the local observatory, a branch of the Carnegie Institution of Washington. "Discovery of an asteroid nearer the earth," Dr. Sears said, "would enable us to obtain a more accurate value of the distance from the earth to the sun, upon which the measurement of distances to all heavenly bodies is based."

"We are much in the position of a surveyor computing the width of a river by 'shooting' at a given point across the stream from two different points on his side of it, and determining the angles of the imaginary triangle. The narrower the stream the more accurate his measurement will be."

"Our computation of 33,000,000 miles as the distance of the sun from the earth is based on the estimate of 33,000,000 miles as the distance from the earth to Eros, the nearest asteroid yet found."

Prices May Be Better

Possibility Of Advance In Wheat Predicted By U.S. Official

A "strong possibility" of better wheat prices are seen by George S. Milnor, president and general manager of the Grain Stabilization Corporation. In a statement Milnor said:

"While in Europe I visited France, Italy, Germany, Belgium and England, and also met our foreign representatives from other countries. Europe will receive rather heavy imports of wheat between now and the harvesting of their new crop. Russia has practically completed the shipment of her wheat surplus from the last crop and the supplies from that source will be negligible until after harvest; therefore, Europe must look principally to Canada, the United States and Argentina for their supplies."

Russia announces the successful production of rubber from a plant named "cissagias."

Electrically heated uniforms and shoes for traffic policemen have been demonstrated.

A new process makes the basic color of Portland cement tan instead of gray.

Great Britain And United States Unite In Opposing Abolition Of The Larger Naval Vessels

Rainy Lake Map Sheet

Lake Country East Of Winnipeg Is A Paradise For Canoeists

Very informative and interesting is the Rainy Lake Map Sheet of the National Topographic series, recently published by the Topographical Survey, Department of the Interior, Ottawa.

The map covers the country along the international boundary from Quebec, Ontario Provincial Park on the east to within thirty-three miles of the town of Rainy River on the west. In addition to agricultural, mineral, forest and water power resources embraced in the area, it is known as a great hunting and fishing region. The Port Arthur, Rainy River and Winnipeg line of the Canadian National Railways runs through the district from east to west, picking its way through the maze of lakes and rivers, which were the means of transportation from the time of the opening up of Western Canada until the railway came, about the beginning of the present century. The lakes and broken country are a paradise for the canoeist, the fisherman, and the hunter, and the voyageurs and trappers of the fur companies from the time of La Verendrye onward were always searching for shorter routes for the carriage of their furs and trade goods.

The chief centre of population is Fort Frances, named after Lady Simpson, the wife of Sir George Simpson, one of the famous governors of the Hudson's Bay Company. Fort Frances is situated on Rainy River a few miles below the point where it emerges from Rainy Lake. Near it are shown the water powers with which its name is associated. On the south side of the river in United States is the town of International Falls. The agricultural areas are chiefly in the western portion, extending from Fort Frances to the townships indicated on the extreme western edge of the map.

The railways and highways in United States which bring travellers and tourists into this part of Canada are also shown. The map which is more complete in all topographic detail of this district than any previously issued, may be had at a nominal price upon application to the Director of the Topographical Survey, Department of the Interior, Ottawa.

"I met my husband yesterday but he didn't see me."

"I know, he told me."

Another thing that doesn't turn out as you wish is the auto ahead of you.

Great Britain and the United States fought for their battleships at the Arms Conference at Geneva, forming a defensive alliance against an organized offensive of the small powers who wish to classify all ships over 10,000 tons as aggressive.

The small powers would abolish battleships or internationalize them within the League.

The United States and Britain received moderate support from Japan and lukewarm encouragement from France.

Senator Claude A. Swanson, of Virginia, announced at the meeting of the naval commission that the United States unequivocally opposed classifying battleships as offensive weapons. They are the backbone of the United States defense system, he said, and "a threat to no nation" since we could not have one's territory. He stressed the United States obligation to keep the Panama Canal open in peace and war and to defend its Far Eastern possessions.

Speaking and gesturing in a sentimental manner, he continued:

"If we had completed our naval programme after the war, it is conceded we would have been supreme on the seas, but we agreed to be a threat to no nation. . . . the battleship is cheaper and more effective for defensive purposes than to build fortifications along our coastlines. Battleships have saved us a great and expensive army for defense purposes."

"We realize that naval power plus military power would menace every nation. We only wish the people who have armies had gone as far as the naval people in reducing and limiting."

He declared cruisers to be of greater offensive use than battleships, particularly in preying on commerce and blockade.

Vice-Admiral A. D. P. Pound, of Great Britain, supported Swanson, declaring that general naval superiority, not capital ships, enables attacks on trade. Similarly, he continued, it is not fair to claim that battleships are destined for carrying out invasions.

"The capital ships of the world can now almost be numbered on the fingers of the two hands," he said. "They are more precious than rubies to the countries possessing them. No nation is going to risk them by fitting them against coastal fortifications."

Baron Von Reichenbach, of Germany, announced that Germany is willing to sacrifice her powerful and efficient "pocket" battleships on the altar of disarmament if others scrap battleships over 10,000 tons. Defending the "pocket" ships as defensive rather than offensive, he said:

"Germany's 10,000-ton battleship costs one-half as much as your battleships. You would be saving money if you adopted Germany's restricted tonnage methods of construction."

He heatedly attacked the charges made by Charles Dumont, of France, that the "pocket" ships are offensive. He referred to the charges as a myth and introduced a technical demonstration of why the light ships were built speedily and heavily armed to deter Germany against the superior tonnage of foreign attackers.

He also criticized the United States thesis of the defensive nature of battleships, saying:

"What about the blockade of our ports, which was the decisive turning point of the World War?"

Just An Old English Custom

A. R. Garner may be truly said to carry his responsibilities lightly as he observes an old English custom and carries his bride, the former Miss Marjorie Pretwell, through the door of St. Cuthbert's Church, Yorkshire, after the ceremony.

"Why is your husband in such a rage?"

"They are praising marriage over the wireless." Dorfharber, Berlin.

"But the best soils on the 13th of the month. Aren't you superstitious?"

"A little, but it's my wife who's smiling." Buen Humor, Madrid.

Obituary poetry 10 cents per line. Transient advertisements to be paid for when ordered.

Changes of advertisements must reach the office not later than noon Tuesday to ensure insertion in the issue of that week.

J. E. GOODER, Editor & Manager

High Time to Protect Public.

For many years there has been objection voiced to the easy manner in which company promoters could secure dominion charters at Ottawa. Inquiry into the bona fides and financial standing of these promoters appears to have been most perfunctory and the result is plain in the widespread fleeing of investors in recent years. Several of the provinces undertook to give their citizens protection in the form of frauds security acts, but even this is not enough to prevent fraud and manipulation in flotation and sale of stocks. The law should be given sufficient teeth to prevent any further exploitation of the kind when good times return and investors forget the painful lessons learned in the recent past.

It is satisfactory that Premier Bennett proposes to take up this matter of watering securities and then foisting them on a gullible public. He announces his intention to call a conference of federal and provincial authorities to study changes in the laws governing the sale of shares in companies and to control the "watering" of stock. "Where enterprises with small capital have been able to make great progress," said the Premier, "they must be prevented from issuing enormous water-logged securities which cause the public to pay enhanced prices... so that they shall be quotable or saleable in the world markets."

The investing public in Western Canada has lost many millions of dollars in the past few years, either through downright fraud on the part of promoters or through over-capitalization, and it is time that effective legislation should intervene. Calgary citizens know something about over-capitalization. As the Edmonton Bulletin points out, the money that was lost in Turner Valley was not lost through fraudulent transactions, but through operations which were strictly legal and have not been called in question in the courts. Companies organized there were permitted to capitalize and sell stock to a hundred or a thousand times the amount that was required or that the property justified. When the slump came the prospect simply faded out that the stockholders could or can get any return on the vast number of shares they hold.

—Calgary Herald.

Teacher: "If coal is ten dollars a ton and you pay the dealer seventy-five dollars, how many tons does he bring you?"

Pupil: (very bright) "A little over six tons."

Teacher: "You know that isn't right."

Pupil: "I know, but they all do it."

LOCAL & GENERAL

What shall we do Saturday night? Why, dance at the Opera House. It's only 25c, and good music too.

The Canadian Legion will hold their regular monthly meeting in the Oddfellows' Hall Saturday night.

Extra good quality large size writing pads (100 sheets) for sale at Pioneer Office—25 cents each.

"Let's dance every Saturday in Olds." Wong's Theatre. Everybody 25c. Good music.

Mr. W. D. Lowden, Tip-Top Specialty Man will be at Ranton's Thursday, June 2nd with new samples and new low prices.

We have a fresh supply of scratch pads now ready. Especially useful for school, store or telephone. 2 for 5 cents.—Pioneer Office.

Thursday evening, June 2nd at 8 o'clock the annual meeting of Zion Evangelical Church will be held at the church.

The sermon subject at Zion Evangelical Church Sunday morning will be "The Price of Success." In the evening the pastor will conduct the monthly question box.

Three carloads of telephone poles were unloaded here this week and will be used to rebuild the line east of town which was destroyed during the snowstorm.

Clint Reiber, Tommy Johnson, and Jim Kirby drove out to the Raven on the 24th. They said that the creeks were too high to fish. We expected a big fish story, but it did not materialize.

St. Cyprian's Anglican Church: June 5th at 7:30 p.m., Evensong. Sermon by the Rural Dean, Rev. W. H. Cripps. On Sunday, July 3rd, Rev. H. Clay will preach at 3 o'clock in the afternoon.

Pat. Worthington is announcing a barn dance in his big barn 2 miles west of the Westcott Store Friday, May 27th, rain or shine. Music by the "Harmony Five," of Carstairs. Hey there, are you coming?

"The Painted Desert," a story of a man who possessed the liquid wealth of a desert water hole. Meet two hard bitten desert riders who have searched together for gold without success. This big feature will be shown at the Opera House tonight, (Thursday).

Charley Cook, Ward Wyman and E. V. Woodcock played with Olds in the baseball tournament in the sports at that town on Tuesday. Bob Gooder played with the Hainstock team. Hainstock won the tournament, with Innisfail in second place. Olds and Westerdale were the other teams in the tournament.

ITEMS OF INTEREST

Following water trails used by early pioneers in Canada, Paul Obolita, formerly postmaster in Edmonton, and Arthur Lemke, ex-steward on one of the Hudson's Bay Co.'s boats plying between Ft. Smith and Akavik, have reached Prince Albert in the course of a 2,000 mile canoe trip from Edmonton to Toronto.

The first boat to arrive at Churchill this summer will return with a shipment of cattle to Europe. While arrangements have been made for the shipping of 2,000,000 bushels of grain via the H.B. route, the cattle cargo leaves early in August before the wheat shipments start. It is stated that a stockyard will be built near the docks. Hay will be brought from the Pas.

The slide blocking the Banff-Windermere highway has been removed and the road opened to automobiles Saturday, according to word received by the Alberta Motor Assn. The road from Banff to Lake Louise is open, but auto traffic is not being permitted on the Banff-Golden road from Lake Louise to the B.C. border, it is stated. This section is soft, but is expected to be alright within a week if clear weather prevails.

Highways throughout the province are to be given additional marking in the way of directional signs that the Dept. of Public Works will place at the junction of main and district highways leading off to important points, lakes and other centres of interest. The work of installation will begin at once. The new signs will correspond in design and color with the official roadmarking signs already installed, having black lettering on a yellow background. Not only will the signs indicate directions to take to the various points from each junction, but the distances in each case will be given as well.

New provincial highways 3 color maps, first of their kind ever to be issued in Alberta are now ready for distribution, according to Hon. O. L. McPherson, minister of public works, whose department prepared and issued the maps. The maps in general conform to the standard highways maps of other Canadian provinces, and of sections of the U.S. They designate various classes of highway and have marked all historic sites and monuments, as well as ports of entry, provincial parks and auto camps. Distribution will be made by publicity commissioner's office in association with the Alberta Motor Association.

Rail fares now issued in connection with overseas traffic were cut by 20 per cent. on May 15th by Canadian railways. The reduction will be in effect to September 15th. Ocean fares which were reduced on April 1st make this combination cut in rail and water rates attractive to those planning a trip to British, Scandinavian and continental ports. The rail and steamship line signatories to this agreement are: C.N.R., C.P.R., Northern Alberta Railways Company, American Merchant Line, Anchor-Donaldson Line, Anchor Line, Canadian Pacific Steamships, Cunard Line, French Line, Gdynia-America Line, Hamburg-American Line, North German Lloyd, Norwegian-American Line, Swedish-American Line, Scandinavian-American Line, United States Lines, Red Star Line, and White Star Line.

Olympic Trials

The Olympic elimination trials for the Calgary District will be held in Calgary on June 11th, under the auspices of the Calgary Police Athletic Association.

Entry forms have been sent to Principal Russell of the high school who will be pleased to give information to those interested. The entries close on May 31.

3rd Sunday, Evensong, 7:30 p.m.

What of the Cutworm?

From a bulletin issued by Dominion Entomological Laboratory at Lethbridge:

Many inquiries have been received as to what effect the recent rain, snow or frost will have on the expected cutworm outbreak. Abundant moisture during the period of cutworm activity in the field is of great value in controlling the pale western cutworm and in reducing the amount of damage that may be expected. However, the recent storms will have little or no effect on the outbreak. Since very few of the eggs had hatched prior to April 20th, the cold will only serve to delay hatching, while the excessive moisture will increase the percentage of eggs which will hatch as soon as the soil warms up again.

The only value of these recent storms from the viewpoint of the cutworm outbreak is that the hatch will be more uniform than was the case last season. The cutworms will develop more evenly and the period of activity in the field will not be so prolonged. In 1931 many fields showed a severe and active infestation of pale western cutworm well into July, which made it impossible to even produce a crop of greenfeed. It is quite probable that the more even hatching this season will see the activity uniformly infested fields can be safely conducted by June 15th. This will depend on subsequent weather conditions, as well as the development in individual fields.

Persons in Alberta and Saskatchewan desiring more detailed information regarding the pale western cutworm are requested to write to Dominion Entomological Laboratories, Lethbridge, Alberta; Saskatchewan or Indian Head, Saskatchewan; or to the Provincial Departments of Agriculture at Edmonton or Regina.

When TEETHING makes HIM FUSSY

One of the most important things you can do to make a teething baby comfortable is to see that little beads do their work of carrying off waste matter promptly and regularly. For this nothing is better than Castoria. A pure vegetable preparation, specially made for babies and children, Castoria acts so gently you can give it to young infants to relieve colic. Yet it is always effective for older children, too. Remember, Castoria contains no harsh drugs, no narcotics—is absolutely harmless. When your baby is fretful with teething or a food upset, give a cleansing dose of Castoria. Be sure you get genuine Castoria with the name:

Dr. J. C. Foster

Flood Sufferers In China Are Starving

Matter Brought Before League Of Nations Manchurian Commission

News of how 6,000,000 Chinese flood sufferers in the Hwai River Valley north of Anhwei are existing chiefly on grass and bark while some are being sold in a human market, was brought to the attention of the League of Nations' Manchurian Commission at Peking.

The affected area was estimated at twice the size of New York State.

The chief supply of food has been relief wheat from the United States. But owing to the trouble at Shanghai between the Chinese and Japanese and inconvenient transportation conditions only 4,000 tons of wheat thus far have reached the Hwai Valley, said Shaowei Peter Chuan, superintendent of the National Flood Relief Commission for the North Anhwei area.

It will be late in June before the wheat crop will have matured and the problem is to feed the starving millions while the authorities do everything possible to improve transportation. Meanwhile, the refugees have been eating grass, weeds, sprouts and the bark of trees.

Relief workers reported to Chuan that the market price for the sale of humans is \$1 in Chinese money, or about twenty cents in American, for each year of the person's age. A ten-year-old child sells for \$10 or about \$2 in gold, the rate rises \$1 a year until the age of 25, when the price begins to recede.

IN THIS PRETTY DRESS, DIFFERENCE IS ARRIVED BY USING A PLAIN AND PRINTED FABRIC

They girls love to have free and easy to wear clothes with skirts to swing about.

For those who look best with the narrow falling from the yoke, the narrow to waist may be omitted.

It's a darling dress. The yoke and applied band at the hem are nautical blue plain batiste. The dress itself is white batiste all covered in blue spots.

It's such a cunning scheme, and you'll love it.

Dimity prints, voile prints, gingham checks, easily striped cotton broadcloths and pique are also suitable.

Style No. 420 is designed for sizes 2-4 and 6 years. Size 4 requires 1 1/2 yards of 34-inch figured with 3/4 yard of 24-inch plain material and 1 1/2 yards of binding.

Price of pattern 25 cents in stamps or cash (cash is preferred). Wrap over carefully.

SHE HAD TO CRAWL TO BED

One stair at a time, on her hands and knees—that was just the lot to do it. And when she did get to bed, her troubles were not over.

Twelve months ago I could not sleep on account of the terrible pains in my back, which were all day long. At night I could only crawl on to bed, one stair at a time. But since taking Knudsen's Kidney Pills, I have entirely lost all pains and stiffness, and, if needed, could now run upstairs two at a time. In fact, I feel 10 years younger. I shall never be without Knudsen's Pills.—Mrs. A. E. D.

Do you realize what causes rheumatism? Nothing but sharpened ure and crystals which form as the result of sluggish eliminating organs. Knudsen's Pills can always be counted upon to remove them and keep them from the system. The six salts in Knudsen are bound to dissolve away all traces of uric acid. And none! They ensure such prompt internal regularity that no such toxic poisons as uric acid are ever to accumulate again. Prove this for yourself by buying a bottle of Knudsen.

Recipes For This Week

(By Betty Barclay)

COFFEE GINGER COOKIES

- 1 cup strong, hot coffee.
- 1 cup molasses.
- 1 cup brown sugar.
- 1 cup shortening.
- 1 tablespoon boiling water.
- 1 tablespoon ginger.
- 1 tablespoon cinnamon.
- Flour for mixing.
- 1 teaspoon soda.

Dissolve soda in boiling water and stir into molasses. Pour over the shortening. Add boiling coffee and sugar, and then add seasonings. Add flour until dough is stiff enough to roll. Roll and cut into desired shapes.

ORANGE CANDIED SWEET POTATOES

(Serves 6)

- 1 cup orange juice.
- 1/2 teaspoon grated orange rind.
- 1 cup water.
- 1/2 cup sugar.
- 3 tablespoons light corn syrup.
- 1/2 teaspoon salt.
- 1/2 cup butter.
- 6-8 sweet potatoes or yams.

Combine first seven ingredients and pour over peeled uncooked sweet potatoes arranged in a circle or baking dish. Bake covered in a moderate oven (375 to 400 degrees Fahrenheit) until tender, 30 or 40 minutes. Baste occasionally. Remove lid last 10 minutes to brown or put under broiler.

VARIATION: Just before removing from oven add a layer of marshmallows and brown.

What the automobile has taught women about household lubrication

Experience with motor cars has taught women that moving parts must be protected against wear by a film of oil. Many of them haven't learned, however, that moving parts of sewing machines, vacuum cleaners, lawn mowers, washers, and other mechanical devices must also be protected against dirt and rust.

3-in-One Oil not only lubricates; it also cleans and protects. It is different from all others, because it is a scientific blend of three high grade oils—animal, mineral and vegetable.

3-in-One is the oil you should use on mechanical equipment if you want best results.

Don't risk your expensive household devices by using oil that does only half the job. Insist on the oil reliable 3-in-One. It costs little more to buy and much less to use. At good stores everywhere. For your protection, look for the trade mark "3-in-One" printed in red on every package.

A Missouri editor prefers a cow to a saxophone, because in addition to making the same noise the cow gives milk.

CARTER'S PILLS

Photo-Electric Burglar Catcher

Will Also Shoot Or Gas Intruder Says

Grid glow tubes and photo-electric cells are being brought into play to help catch burglars.

"Dick Dead-Eye" is the name given an instrument of tubes and cells which has been created by Dr. Phillips Thomas, research engineer of Westinghouse Electric and Manufacturing Company. The apparatus is a network of infra-red or ultra-violet rays thrown over a room to protect property.

The invisible rays are so arranged that interruption by an intruder causes the cells to turn on lights in the room and to sound a loud alarm.

They can also be made to give an alarm at the police station, unknown to the intruder.

Simultaneously with the alarm and lights, photographs may be taken by a camera hidden in the wall. The burglar need not know of this, as the infra-red rays may also be utilized for the purpose and the intruder remain in apparent darkness.

Dr. Thomas explained that he had trapped himself several times successfully with the instrument and that the device had proved workable under various conditions. The photographs were ready for distribution within twenty minutes.

Possibilities of "Dick Dead-Eye." Dr. Thomas says, are limitless, as a burglar may be ten-gassed, made senseless by an odorless gas or even shot down by an automatically operated pistol.

Trying New Experiment

Scientists Will Endeavor To Test Atmosphere During Sun's Eclipse

Science will take advantage of a 66-second total eclipse of the sun on August 31, to check up on Professor Albert Einstein's theory of astral light deflection. Elaborate plans for the test, which will utilize all modern equipment possible, with aeroplanes and balloons taking a major part, were announced by Northwestern University, Chicago.

When the moon's shadow wipes out the sun's light for the few brief moments, balloons carrying aerological instruments, and aeroplanes bearing additional delicate recording equipment, will be ready to meet the occasion over Freyburg, Me.

Freyburg, said Dr. Oliver Justin Lee, Associate Professor of Astronomy, was chosen because forecasts indicate that the most favorable weather conditions will prevail there.

This will be the first time, Dr. Lee said, that science has ever undertaken to determine what happens to atmospheric pressure and temperature during the eclipse. If plans materialize, one of the astral expeditions' planes will climb 30,000 feet where clouds or haze won't interfere.

The full eclipse will sweep down from the Arctic region, across the Province of Quebec and the northeastern corner of the United States. It will then pass out over the Atlantic at Cape Cod.

Britain Will Lead the Way

Famous London Merchant Says England On March Race To Economic Recovery

"Of course England will lead the world in the march back to economic recovery," declared Gordon Selfridge, famous London merchant, in the course of an interview at Toronto.

"England will be at the head of the parade just as in the past. It is character that does it. We are carrying tremendous burdens. We haven't a lot more than we had when a while back when things were at their worst, but we are on our feet."

What Is Fame

What is fame? Upon the walls of the corridor leading to the Parliamentary restaurant at Ottawa, there are etchings of all the Prime Ministers of Great Britain. The other day, when two American visitors were walking down this corridor, one of them stopped, pointed his cane at the etching of Bismarck, and knowingly remarked: "Ah, George Arliss."

Certain Is Right

Friend: Say, there's a bunch of people outside waiting to be presented to you. Among them is a bishop who says he married you some time ago. Film Actress: Gee! I'm practically certain I never married a bishop.

"DON'T BE ROBBED OF YOUTH!"

SAYS RALPH GRAVES

RALPH GRAVES
Scenario Writer

"Here in Hollywood," Ralph Graves, scenario writer says, "women don't use birth-days as an excuse for growing old. They seem to know the secret of becoming more and more alluring

year after year.

"The screen and stage stars usually keep that lovely irresistible glow that youngsters have. And lots of other women, these days, seem to have learned their complexion secret."

'Plane Surprises Natives

Dayaks Of Borneo Wanted To Know If Flying Machine Laid Eggs

The head-hunting Dayaks of Borneo were so intrigued at the sight of their first aeroplane that they wanted to know whether it laid eggs.

Richard Hillington, of Memphis who is on a leisurely flight around the world, told the story to associates in New York in a cable from Manila.

The Tennessee flyer's message said he had arrived at Manila at the end of a 40,000-mile flight and had spent three weeks in Borneo with his plane, the "Flying Carpet," visiting the head hunting Dayaks, who never had seen an aeroplane.

"Took the chief flying in native undress, except for goggles," the cablegram said. "Apparently big event in Dayak's history. War boats were filled with warriors who came 300 miles to see the chief fly. Dayaks asked if aeroplane laid eggs."

Cried at Night

"Night after night, as soon as we would get settled in bed, baby would start crying. . . BABY'S OWN TABLETS changed all this. What a blessed relief!" writes Mrs. Arthur Baker, Jr., Winona, Ont. Give Baby's Own Tablets for teething troubles, colds, fever, colic. Absolutely SAFE. 25c package.

Dr. Williams' BABY'S OWN TABLETS

The forests of Quebec cover an area of more than 125,000,000 acres according to recent estimates.

Argentina has only about 7,000 plants using steam for power.

Porto Rico imported \$1,000,000 worth of jute bags in 1931.

THE HOUSE OF DREAMS-COME-TRUE

—BY—
MARGARET FEDLER
Author Of
"The Splendid Little Girl"
Holder & Stoughton, Ltd., London.

CHAPTER XX.—Continued.

She purred, and the liquid in the black pot over the fire seethed up suddenly and filled the silence with its chuckling and gurgling, so that to Jean it seemed like the sound of some hidden malice chortling defiance at her.

The old woman clutched her hand a little tighter, turning the palm so

There is
NO ODOR
from **FISH**.

or from
Vegetables cooked
in **CANAPAR**

Boiled, or steamed, fish comes out firm and solid, swimming in its own juice, when you seal it up in Canapar Cookery Parchment. No fishy odor. No gummy steam or sauce pan to clean out afterwards.

And vegetables are simply delicious. Using Canapar you can cook three at once in the same pot over one burner turned low. Canapar acts on them as it does on fish. Retains all the mineral salts and flavor.

Fat and juices from meat won't burn if you line your roasting pan with Canapar. No pan-scorching afterwards.

Canapar only costs 25 cents for a large envelope. You can use each sheet repeatedly because it won't absorb odors. Makes a perfect dish cloth because it is silky, strong, and doesn't spread lint.

Special Offer

CANAPAR is made by the makers of the famous PARASOL (Havy Vaxed Paper) in the Green Box. Most grocers, druggists and department stores have Canapar on sale, but if yours haven't send coupon directed to the makers and we'll give you a new and valuable book entitled "Leavers", containing one hundred recipes as a bonus for your trouble.

that the light from the tiny window fell more directly upon it.

"There's a castle waitin' for 'ee, me dear," she resumed in the same sing-song voice as before. "I can see it so plain as plain. But you won't never live there wif the one you love though you'm hopin' to. I see ruin and devastation all around it, and the sky as red as bid above it."

She released Jean's hand slowly, and her curiously bright eyes fastened upon Tormarin.

"Shall I tell the gentleman's hand?" she asked, stretching out her withered claw to take it.

"No, no," he said, attempting to speak lightly. "This lady's fortune isn't sufficiently encouraging for me to venture."

The gipsy's eyes never left his face. She nodded slowly.

"That's as may be. For t'ez the zaim luck and zaim ill-luck will come to you as comes to thicks mind. There's no ring given or taken, but you'm bound together so fast and firm as weedin'-ring could bind 'ee."

Jean felt her face flame scarlet in the dusk of the tiny room, and she turned and made her way hastily out into the sunshine once more, thankful for the eager queries of Nick and Claire, which served to bring back to normal the rather strained atmosphere induced by the gipsy's final comment.

As they climbed the side of the tower more, Jean relapsed into silence. More than once, more than twice, since she had come to England, she had been vaguely conscious of some hidden menace to her happiness, and now the gipsy had suddenly given words to her own indefinite premonition of evil.

"For there's darkness comin'—'ee, black darkness."

It was a relief to join the rest of the picnic party, who were clamouring loudly for their lunch, though humorously indignant with the wonderers for keeping them waiting.

"Another five minutes," announced Burke, "and we should have begun without you. Not even Lady Anne could have kept us under restraint a moment longer."

The party was quite a large one, augmented by a good many friends from round about the neighborhood, and amid the riotous fun and ridiculous mishaps which almost invariably accompany an informal meal, Jean contrived to throw off the feeling of oppression generated by Keturah's prophecy.

Burke, having heaped her plate with lobster mayonnaise, established himself beside her, and proceeded to catalogue her about her recent experience.

"Did the lady what's her name, Keturah?—tell you when you were going to marry me?" he demanded in an undertone, his date-devil eyes laughing down at her impudently.

"No," she did not. She only foresees things that are really going to happen," retorted Jean.

"Well, that is"—compactly, "she can't be much good at her job if she missed seeing it."

"Well," Jean affected to consider—"the nearest she got to it was that

she saw 'darkness coming'

black darkness."

"Under cover of the general preoccupation in lunch and conversation, Burke's hand closed suddenly over hers.

"You little devil!" he said, half amused, half sulky. "I'll make you pay for that."

But out here, in the wind-swept, open spaces of the Moor, Jean felt no fear of him.

"First catch your hare—" she retorted defiantly.

He regarded her tensely for a moment.

"I'll take your advice," he said briefly. Then he added: "Did you know that I'm driving you back in my cart this afternoon?"

Various cars and traps and saddle horses had brought the party together at the appointed rendezvous—a little village on the outskirts of the Moor, and Jean had driven up with Blaise in one of the Stickle cars. She looked at Burke now, in astonishment.

"You certainly are not," she replied quickly. "I shall go back as I came—in the car."

"Quite impossible. It's broken down. They rashly brought on the lunch hampers in it, across that God-forsaken bit of moor road—with disastrous consequences to the car's internals. So that you and Tormarin have got to be sorted into other conveyances. And I've undertaken to get you home."

Jean's face fell a little. Through-out the drive to the Moor Blaise had seemed less remote and more like his old self than at any other time since their quarrel, and she could guess that this arrangement of Burke's was hardly likely to conduce towards the continuance of the new peace.

"How will Blaise get home?" she asked.

"They can squeeze him into her car, Judy says. I'll be a tight fit, but he can cling on by his eyelashes somehow."

"I think it would be a better arrangement if you drove Blaise and I there. There's certainly not room for two extra in the car. There isn't really room for one."

"There wouldn't be two. You would drive Blaise."

"Pardon me. I should do nothing of the sort."

"Do you mean?"—incredulously—"that you would refuse?"

"Oh, I should invent an unaccountable reason. A broken spring in the dog-cart or something. But I do mean that if I don't drive you, I drive no one."

Jean looked at him wearily.

"Well," she said uncertainly, "we can't have a fuss at a picnic."

"No," agreed Burke. "So I'm afraid you'll have to give in."

Jean rather thought so, too. There didn't seem any way out of it. She knew that Burke was perfectly capable, under cover of some suppos-

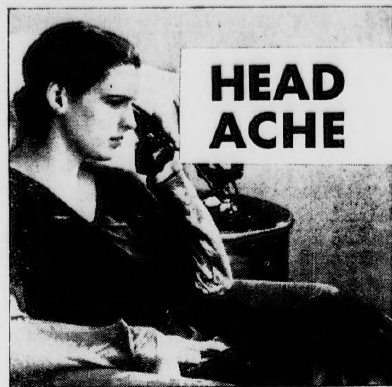

**SOUR
STOMACH**

JUST a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective yet harmless. It has been the standard aid for 50 years. One successful neutralization at once many times its volume in acid. It's the right way, the quick, pleasant and efficient way to kill all the excess acid. The stomach becomes sweet, the pain departs. You are happy again in five minutes.

Don't depend on crude methods. Don't let your feet walk on gravel in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine.

The tried identifier for clean teeth and healthy gums is Phillips' Dental Magnesia, superior tooth-paste that safeguards against acid-mouth. (Made in Canada.)

HEAD ACHE

THE woman who lets headaches upset her plans must have her eyes and ears closed to certain facts about Aspirin. There is always swift comfort, and never any harm, in Aspirin tablets. Doctors have said so; men and women everywhere have found it so. Any headache—from any cause—is always relieved by one or two tablets. And lots of other aches and pains. Neuralgia. Neuritis. Rheumatism. Numbing pains. The pain from colds which make you "ache all over." Sore throat. Systemic or "muscular" pain. Aspirin can spare you lots of needless suffering! Be sure you get Aspirin—not a substitute!

ASPIRIN
MADE IN CANADA—TRADE-MARK REG.

ship to his trap, of throwing the whole party into confusion and difficulty, rather than relinquish his intention.

"Oh, very well," she yielded at last, resignedly. "Have your own way, you obstinate man."

"I intend to," he replied coolly. "Now—and always."

CHAPTER XXII.

Divers Happenings

"I don't think I want any champagne," said Claire, smilingly, as Nick filled a glass and handed it to her. "Being utterly free like this produces much the same effect. I feel drunk, Nick—drunk with happiness. Oh, why can't I be always free!"

She broke abruptly in her speech, her face whitening, and stared past Nick with dilated eyes. Her lips remained parted, just as when she had ceased speaking, and the breath came between them unevenly.

Nick followed the direction of her glance. But he could see nothing to account for her suddenly stricken expression of dismay. A man in chauffeur's livery, vaguely familiar to him, was approaching, and it was upon him that Claire's eyes were fixed in a sick gaze of apprehension. It remained Nick of the look of a wounded bird, incapable of flight, as it watched the approach of a hungry cat.

"What is it?" he asked quickly. "What's the matter? For God's sake don't look like that, Claire!"

Slowly, with difficulty, she wrenched her eyes away from that sleek conventional figure in the dark green livery.

"Don't you see who it is?" she asked in a harsh, dry whisper.

Before Nick could answer, the man had made his way to Claire's side and paused respectfully.

(To Be Continued.)

Mothers Value This Oil. Mothers who know how embryo creep may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise for its various uses render it a valuable medicine.

Archæologists excavating the market place of Athens hope this year to bring to light the Senate House and the Temple of the Mother of the Gods.

Doan's Egyptian Liniment should be in every household. Stops bleeding at once, cures cuts and bruises and prevents blood poisoning. Keeps away inflammation. Removes proud flesh.

New York state contains 49,204 square miles.

Little Helps For This Week

"And now I exhort you to be of good cheer."—Acts xxvii, 22.

Make me as one that casteth not by day.

A dreary shadow, but reflecting eye. One little beam, loved, warmed, and golden caught.

From the bright sun that lights our daily way.

You find yourself refreshed by the presence of cheerful people; why not make earnest efforts to confer that pleasure on others? You will find the battle is gained if you will never allow yourself to say anything gloomy.—Lydia M. Child.

ACID STOMACH IS DANGEROUS

Suffers From Indigestion
CUT THIS OUT

"Stomach trouble, dyspepsia, indigestion, neuritis, gas, heartburn, food fermentation, etc., are caused once in three in ten by chronic acid stomach." 222

Burning hydrochloric acid develops in the stomach, and it is this acid which irritates and inflames the delicate stomach lining and often leads to gastric or stomach ulcers. Don't dare an acid stomach with poison or artificial stimulants that only give temporary relief from pain by driving the acid fermenting food out of the stomach into the intestine.

Instant neutralization, soothes your stomach, and cures it with Little Bismarck Magnesia and not only will the full power of your nerves will digest normally. There is nothing to eat and nothing to fear. Just a few minutes. Bismarck Magnesia can be obtained from any reliable druggist in any amount or in tablet form. It is safe, reliable, easy and pleasant to use. It is not a laxative and is not at all addictive.

Idle Money Earns Nothing

When Waterloo Bridge in London, England was built 120 years ago several sovereigns were buried in a block of granite forming part of it. When this bridge is pulled down each of these sovereigns will be worth 25s. 6d. when recovered, but had they been invested each of them would now be worth about 100 pounds.

The last session of U.S. congress saw the introduction of 6,011 bills.

INTERNATIONAL HARVESTER CROP PRICE GUARANTY

for No. 1 Northern,
Winning quotation

Take advantage of this offer...
Get the new equipment you need
to reduce your production costs

Many farmers who need new machines for the economical production of their crops have been reluctant to buy them because of uncertainty as to the prices they will receive later in the year for these farm products.

In order to meet this situation, the International Harvester Company of Canada, Ltd., offers to farmers purchasing machines after this date, a definite price guaranty on wheat based on 77 cents a bushel for No. 1 Northern at Winnipeg, applying to a liberal portion of the purchase price of the machine. If the market price for wheat does not reach the guaranteed price at the time payment becomes due on notes given and maturing this year, the purchaser of machines under the plan will receive a credit equal to the difference.

Any farmer in Canada, regardless of where he lives or what he raises, can purchase McCormick-Deering farm machines under the terms of this offer.

This is your chance to replace wornout and obsolete equipment on a favorable price basis. Let us explain the details of this remarkable plan and tell you just how to take advantage of it in equipping your farm with the new cost-reducing machines you need at a real saving.

Burnside Notes.

Lester and Marjorie Pross spent the week-end with their sister Helen and Miss Winnie Spraggs.

Mr. Fred Doll, of Didsbury, spent the 24th, with Mr. Robert Eckel.

Miss Tena McLean, who graduated this month from the General Hospital, Calgary, is home on a 3 weeks holiday.

In spite of the cold, raw weather and dampness under-foot, the W.I. picnic on May 24th, was a great success. Races and ball games of every kind were enjoyed in the afternoon and at night there was a big dance with Tenna Sick and his orchestra furnishing the music. The W.I. ladies made a nice little sum after all expenses were paid.

To Late For Last Week.

Mrs. George Saunders and small daughter, left on Saturday to spend the summer with her mother, at Lacombe.

Mr. Charles Mardon is home from the Belcher Hospital where he has been taking treatment.

Lone Pine W.I. met at the Hall on Thursday, May 12th, with a good attendance of members and visitors. Miss Zook, of Sunny-slope, spoke on the W.I. Creed and sang two solos which were much enjoyed. Miss Zook and Miss Stauffer also sang together very nicely. Arrangements were made for the annual picnic on May 24th, sports in the afternoon and dance at night. The next meeting will be held at the home of Mrs. Bert Pross on June 9th.

Melvin Notes

Miss Mary, Ellis and Joe White, spent Sunday at the Carlson home.

Miss E. Ingoe, of Lacombe, spent the holidays with Mrs. John Clarke.

We are pleased to report that Mrs. Chas. Young is feeling much better and is at her home now.

Jack O'Connor, one of our young bachelors, has returned to his farm at Caroline.

Miss Florence O'Brien and George Little, of New Norway, spent Sunday at Mr. and Mrs. George Youngs.

Look sharp girls! Alf Durrer has turned to the cooking line and is keeping house for our new bachelor, Lancelot Carlson. The girls of the district hope it is contagious.

The young folks of the district say they have one on us now as they saw quite a few married people making crooked tracks last Saturday night, maybe they did, but we haven't heard of any of them losing their collar and ties yet.

Mountain View Notes

The 24th passed very quietly, most people being content to remain at home, owing to the cold, rainy weather, but wearing a smile, as the recent rains are doing so much good, the past two seasons having been dry.

The monthly meeting of the local W.I. took place at Community Hall Thursday last. The meeting opened with the singing of "O, Canada," followed by the roll-call, which was answered by giving questions and answers on "Agriculture," the topic being very ably given by Mrs. J. Haynes, who is with us again for a time. She staged a guessing contest after her paper, prizes being won Mrs. Blain 1st, Mrs. Benson 2nd, Mrs. J. Hill, consolation. Mrs. Husegood, constituency convener was present and spoke. The next meeting is to be held in Community Hall the third Thursday in June.

Canada's total carry-over of wheat when the present crop year ends on July 31st is estimated at around 103,000,000 bushels, the smallest since 1926, which should have a decided bearing on the outlook for better prices on this season's crop, according to the agricultural dept. of the C.N.R. Over 90 per cent of Canada's wheat exports for the first three months of this year were shipped from Canadian ports.

Senior C.G.I.T. Group Holds Musical Evening

Wednesday evening, May 18th proved a very pleasant one for those who were the guests at the Senior C.G.I.T. Girls' musical evening at the home of Mr. and Mrs. J. Boorman.

The evening was termed a "Lowell Paton Evening" and musical selections were played and some of its most exquisite compositions were sung. The evening's entertainment was furnished by Mrs. Boorman, Miss Maurine Stugstad, Miss Mollie Pearson, Miss Dorothy Ranton and Miss Margaret Geiger, whose singing accomplishments forced her into giving a talk on the "Life of Lowell Paton."

After the entertainment, refreshments were served, mingled with social talk and whatnot. At a very modest hour the meeting adjourned.

You can paint cheaper now! See the Builders Hardware advt.

Ladies' Softball.

The Didsbury ladies' softball team took divided honors at the Olds sports on Tuesday. In the first game against Olds they lost all the way and won by a score of 15-13.

In the finals against Carstairs the teams were well matched and both sides played good ball. The Didsbury girls were leading to the fifth inning, but the Carstairs girls tossed them out in the last two frames and won the tournament with a score of 8-6.

The members of the Didsbury team were: Ella Bartz, Nina Wilson, Lottie Hunsberger, Alton Folkman, Greta Folkman, Holly Hunsberger, Grace Irwin, Alven St. Clair, Emma Bfuz, Grace Irwin, Annie Morton.
